

REMARKS

Claims 1-3, 5-24 and 27-28, as previously submitted, and new claims 29-34 appear in this application for the Examiner's review and consideration. When reviewing the response filed November 18, 2005, it was found that certain additional claims directed to preferred embodiments were inadvertently omitted. Thus, new claims 29-34 have been added. These claims are supported by paragraphs [0067] to [0072] of the published application, so that there is no issue of new matter in adding them to the application. Also, as those claims depend from claim 1, they should be patentable for at least the same reason that claim 1 is patentable. Thus, the entry and allowance of the new claims is respectfully requested.

Date: _____

11/22/05

Respectfully submitted,

Allan A. Fanucci
